

Please do not remove the "DO NOT CALL" Law from the NJ books.
People have a right to have their privacy. If we give permission
for someone to call fine but we should not have unwanted calls.
It's is similar to having someone walk into your front door and not
having permission to do so. Please respect our wishes and let us
have our privacy. Telemarketers are an extension of big businesses
just trying to make more money. They are still in business without
calling our homes. Thank you for your time and much anticipated
attention to this matter.
